

City of San Diego  
**CARL DEMAIO**  
CITY COUNCILMEMBER –DISTRICT 5

## MEMORANDUM

DATE: April 7, 2011  
TO: Roger Bailey, Public Utilities Director  
FROM: Councilmember Carl DeMaio  
RE: Public Utilities Department Contracting Information Request

---

Managed competition, if employed properly, can produce substantial benefits and efficiencies. If the process is truly competitive, the City is presented with a variety of options for achieving desired outcomes. The City is then able to select the option that is best suited for achieving the desired goals.

Private party responsibility for various water and wastewater utility functions is well established around the United States.

Please provide my office the following information regarding Public Utilities Department contracts.

1. All operative Public Utilities Department service contracts in their entirety
2. A list of all Public Utilities Department contracts that involve prevailing wage
3. A list of all Public Utilities Department capital improvement contracts

Should your office have any questions, please do not hesitate to contact Frank Prewoznik on my staff.

Thank you for your prompt attention to this request.

cc: Aimee Faucett, Deputy Chief of Staff/Director of Policy, Office of the Mayor
